## WHAT WE DO

The Somaliland Development Fund focuses on sustainable investments that spur job creation and fast growth, while at the same time laying the foundation for long-term resilience and development, leading to a more stable and peaceful Somaliland.

SDF invests in projects that are supported by robust Operations and Maintenance (O&M) systems and budgets, thereby ensuring the longer-term sustainability of economic assets. This requires more thorough economic analyses, while at the same time addressing regional equity and social inclusion with a particular focus on girls, women, youth and marginalised groups.

SDF therefore actively supports partnerships with communities to effectively address issues that affect their lives, with respect for community members as active participants in their own development. The SDF also addresses the effects of climate change ensuring that adaptation measures are integrated into projects.

 Somaliland

 2018 - 2024

 \$39.4 million

 790,000

## WHO WE ARE

The Somaliland Development Fund was established in 2012 as a pooled fund to provide a single vehicle through which Development Partners could support Somaliland's development goals. The SDF supports the Government of Somaliland in delivering strategic infrastructure contributing to inclusive economic development and is aligned to Somaliland's National Development Plan.

The SDF Joint Steering Committee (JSC) is the highest decision-making body and is responsible for setting the overall strategy of the Fund. The JSC is composed of the Minister of Planning and National Development, the Minister of Finance Development and representatives from the Development Partners that contribute to the Fund. The SDF provides the Secretariat to the JSC.

The Ministries, Departments and Agencies (MDAs) act as Project Holders, responsible for managing individual projects on behalf of the GoSL. Project Holders are supported by Implementing Partners who are sourced on a competitive basis to deliver the various components of each project.

The external Fund Manager acts as the SDF Secretariat and provides oversight on the implementation of projects on behalf of the JSC. The Fund Manager is also responsible for all procurement, financial management, monitoring and evaluation and fiduciary risk management of the Fund.

# SDF1 ACHIEVEMENTS 2013 – 2018

Reached 1,438,000 people

72% of the sampled citizens reported improved service delivery in *roads, water supply and agriculture*

88% of the sampled citizens reported improved journey time on the 156 km of *rehabilitated roads*

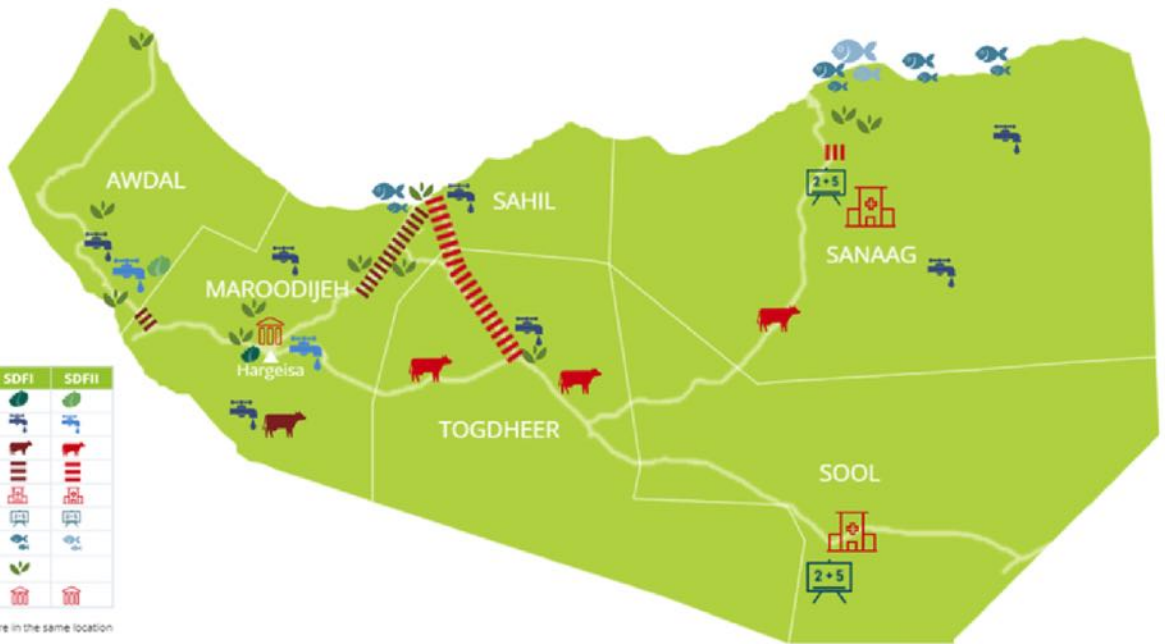

Conserved 32,700 hectares of land

78% of contracts were awarded to Somaliland businesses

5,858 m<sup>3</sup>/day & 141 rural water points

# SDF2 Projects

# LAASDHURE WATER SUPPLY

**This project, implemented by the Hargeisa Water Agency, will increase water production from the Laasdhure aquifer and connect it to the existing system at the New Geed Deeble Pumping Station. This will deliver an additional 4 million litres of clean drinking water each day to the people of Hargeisa.**

## Project Activities

1. Improve the Hargeisa Water Agency's capacity to manage water infrastructure
2. Improve and support community-level governance structures through training and mentoring
3. Design and develop 4 boreholes in the Laasdhure wellfield
4. Construct a 13.5km pipeline to connect the boreholes in Laasdhure wellfield to the New Geed Deeble Pumping Station
5. Conduct a technical study to guide the sustainable expansion of Hargeisa's urban water supply

 Hargeisa

 2020 - 2023

 5.0 million

 114,000

# SUSTAINABLE LAND MANAGEMENT

**In Durdur Ad Catchment, the project supports 20,000 agro-pastoralists improve their food security through adaptation to climate-change, and increases their incomes through the rehabilitation and conservation of 10,000ha of land. Implemented by the Ministry of Agricultural Development.**

## Project Activities

1. Improve the Ministry of Agricultural Development's capacity to manage and support soil and water conservation and agriculture production activities
2. Improve and support community-level governance structures through training and mentoring
3. Scale up sustainable land management through the installation of soil and water conservation structures
4. Improve the agricultural production of small farmers through soil and water conservation, extension, farmer training and the supply of farm inputs

 Awdal

 2020 - 2023

 4.2 million

 20,000

# REHABILITATION OF BURAO-BERBERA ROAD

This project, implemented by the Ministry of Transport and Road Development, will improve the connection between the largest livestock hinterland in the east of Somaliland and the seaport city of Berbera.

## Project Activities

1. Improve the the Ministry of Transport and Road Development's capacity to manage road infrastructure
2. Improve and support community-level governance structures through training and mentoring
3. Assess, design, and rehabilitate 64 km of road and four bridges between Berbera and Burao
4. Conduct a feasibility study and design for the Maydh-Erigavo road

 Sahil & Togdheer

 2020 - 2023

 \$ 9.9 million

 50,000

# RECONSTRUCTION OF MAYDH JETTY

This project, implemented by the Ministry of Livestock and Fisheries Development, is expected to create 200 direct jobs and will assist more than 3,000 fishermen by improving the inter-connectivity between Berbera and the hinterland of Sanaag, Sool and parts of Togdheer regions.

## Project Activities

1. Construct a 165m jetty in Maydh, Sanaag Region
2. Establish a management system for the facility

 Sanaag

 2020 - 2023

 5.0 million

 200 direct  
beneficiaries

# STRENGTHENING ANIMAL PRODUCTION & HEALTH SERVICES

**This project, implemented by the Ministry of Livestock and Fisheries Development, aims to improve the livelihoods of livestock producers and fodder farmers in Togdheer and Sanaag regions through training, operational research, support for disease surveillance, and increased fodder production through irrigation.**

## Project Activities

1. Improve the Ministry of Livestock and Fisheries Development's capacity to manage fodder production and animal health in the livestock value chain
2. Improve and support community-level governance structures through training and mentoring
3. Upgrade Aroori livestock holding ground into a livestock centre to train and extend animal health provision services in Togdheer region
4. Provide support in Xaaxi to put an additional 400 hectares of land under fodder production
5. Operationalise the existing animal disease surveillance unit, establish a static veterinary clinic in Aroori and a mobile one to reach other parts of Togdheer and Sanaag regions

 **Togdheer & Sanaag**  **2020 - 2023**

 **3.2 million**

 **280,000**

# BORAMA URBAN WATER SYSTEM IMPROVEMENT

This project, implemented by the Ministry of Water Resource Development, aims to serve 90,000 residents of Borama town, Awdal Region, through the delivery of 3 million litres of water per day, improving the availability of and access to clean and affordable drinking water.

## Project Activities

1. Construct 19 km of pipeline connecting Borama with the water source
2. Install two 500,000 litre water tanks at Al-Hayat hill
3. Install electromechanical equipment
4. Construct various supporting buildings (administration block, lodge, generator rooms etc.)

 Awdal

 2019 - 2022

 2.4 million

 90,000

# STRENGTHENING ARTISANAL FISHERIES

The project, implemented by the Ministry of Livestock and Fisheries, is expected to lead to improvements in the productive and environmental management sectors, resulting in enhanced incomes, improved food security, resilience and cultivated natural resources.

## Project Activities

1. Improve the Ministry of Livestock and Fisheries' capacity to manage activities in the fisheries value chain
2. Improve and support community-level governance structures through training and mentoring
3. Improve and fully operationalise cold chain facilities installed during SDF1
4. Establish a fish inspection, quality control and certification system

 Sanaag

 2020 - 2023

 1.5 million

 50,000

# THE CONSTRUCTION OF GEED DEEBLE WELLFIELD COLLECTOR

The construction of the Wellfield Collector (WFC) is expected to bring additional water to about 250,000 inhabitants of Hargeisa city, including the urban poor.

The project is implemented by the Hargeisa Water Agency.

## Project Activities

1. Supply and installation of pipelines connecting existing wells to the New Geed Deeble Pumping Station including pressure testing
2. Construction of borehole connections (feeders) to the main collector line for existing wells alongside WFC-1
3. Connections of WFC-1 to old pumping station and Permanent Connection to the New Geed Deeble pumping station

 Hargeisa

 2019 - 2020

 1.65 million

 250,000

# PROVISION OF RECURRENT COSTS TO ERIGAVO AND LAS ANOD SCHOOLS

This is a transition project which aims to make Dayaha and Lasanood Secondary boarding Schools fully functional and offer quality secondary education to the Sool and Sanaag populations.

Implemented by the Ministry of Education and Science.

## Project Activities

1. Continuation of funding the recurrent costs of Dayaha Boarding School (Erigavo)
2. Continuation of funding the recurrent costs of Lasanood Boarding School in Las Anod
3. Provision of a vehicle to support the day-to-day activities of the school
4. Develop a full sustainability plan for the schools' operations post-SDF funding

**Erigavo &  
Las Anod**

**2018 - 2020**

**\$ 801,600**

**750,000**

# PROVISION OF RECURRENT COSTS TO ERIGAVO AND LAS ANOD HOSPITALS

This project aims to improve the functioning of Las Anod and Erigavo regional hospitals so they can better provide needed health services.

The project is implemented by the Ministry of Health Development.

## Project Activities

1. Continuation of funding the recurrent costs of the Erigavo General Hospital
2. Continuation of funding the recurrent costs for Las Anod General Hospital
3. Provision of vehicles to support the day-to-day activities of the schools
4. Develop a full sustainability plan for the hospitals' operations post-SDF funding

 Erigavo & Las Anod

2018 - 2020

 506,400

 750,000

## SUPPLY OF EQUIPMENT AND DRUGS

**This is part of the Sool and Sanag Health Project which aims to contribute to reduced poverty levels in the Sool and Sanaag regions through the delivery of quality secondary health care services, resulting in lower morbidity and mortality, and higher productivity.**

**Implemented by the Ministry of Health Development.**

### **Project Activities**

1. Continuation of funding the recurrent costs of the Erigavo General Hospital
2. Continuation of funding the recurrent costs for Las Anod General Hospital
3. Provision of vehicles to support the day-to-day activities of the schools.
4. Develop a full sustainability plan for the hospitals' operations post-SDF funding

 **Erigavo & Las Anod**

 **2019**

 **\$1.3 million**

 **750,000**
